## DETAILED ACTION

### *Oath/Declaration*

1. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 43-45 and 55-57 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. Because the claims have been amended, a supplemental declaration must be filed.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.

Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b). In addition, when any substantive amendment is filed in the reissue application, which amendment otherwise places the reissue application in condition for allowance, a supplemental oath/declaration will be required. See MPEP § 1414.01.

### *Information Disclosure Statement*

2. The references cited during prosecution of the parent must be cited in a reissue application. It is believed by examiner that this is more easily done by Applicant's filing an IDS than by examiner completing PTO Form 892, since most of the references in the parent were already cited on an IDS.

*Response to Amendment*

3. The amendment filed June 6, 2005 proposes amendments to claims 43-45 and 55-57 that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. The instant amendment was not made in reference to the patent. A supplemental paper correctly amending the reissue application is required.

*Allowable Subject Matter*

4. Claims 1-36 are allowed.

5. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest an article of manufacture comprising a monolithic composition formed by combining a water-insoluble polymer, a hydrophilic agent, and a releasing agent, where the composition comprises at least three phases and has interconnecting channels with the releasing agent in or adjacent to the channels.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
